**WE ARE WAITING FOR YOU AT ESSENTIAL INSTALL
LIVE! SOUTHERN SHOW!**

"IF IT CAN BE AUTOMATED WE CAN AUTOMATE IT FOR YOU"

We are based in central London with primary area of activity as a value added distributor of electrical and engineering components with focus on building and home automation.

As the UK and Europe's leading supplier of home automation components we are delighted to assist you in our online shop starting from the design through the ordering process to the final stage of installation and commission. At KNXShopOnline.co.uk we would like to offer you an entire compatibility and the first class service.

Our mission is to increase recognition of KNX technology, provide excellent training service for new and existing integrators and supply extensive design and project support.

This season we are introducing exclusively to UK market the "state of art" in Automation World, products from **Tense Control & Switches** and **Eelectron**, with engineering solution for Residential & Hotel Market and **WAGO BMS** solution based on 750-849 PLC controller, so do not lose the opportunity to come and visit us at the Essential Install Live! Southern Show (Stands No. 103 & 104).
